

BSI Standards Publication

Instruments and software used for measurement in high-voltage and high-current tests

Part 3: Requirements for hardware for tests with
alternating and direct voltages and currents

National foreword

This British Standard is the UK implementation of EN IEC 61083-3:2021. It is identical to IEC 61083-3:2020.

The UK participation in its preparation was entrusted to Technical Committee PEL/42, Testing techniques for high voltages and currents.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
