

BSI Standards Publication

Preparation of steel substrates before application of paints and related products — Test methods for metallic blast-cleaning abrasives

Part 9: Wear testing and performance

National foreword

This British Standard is the UK implementation of EN ISO 11125-9:2022. It is identical to ISO 11125-9:2021.

The UK participation in its preparation was entrusted to Technical Committee STI/21, Paint systems and surface preparation for metallic substrates.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations
