

BSI Standards Publication

Preparation of steel substrates before application of paints and related products — Test methods for non-metallic blast-cleaning abrasives

Part 7: Determination of water-soluble chlorides

National foreword

This British Standard is the UK implementation of EN ISO 11127-7:2022. It is identical to ISO 11127-7:2022. It supersedes BS EN ISO 11127-7:2011, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee STI/21, Paint systems and surface preparation for metallic substrates.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.
