BSI Standards Publication

Soil quality — Parameters for geochemical modelling of leaching and speciation of constituents in soils and materials

Part 1: Extraction of amorphous iron oxides and hydroxides with ascorbic acid

National foreword

This British Standard is the UK implementation of EN ISO 12782-1:2012.

The UK participation in its preparation was entrusted to Technical Committee EH/4, Soil quality.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
