

Milling cutters for high speed machining — Safety requirements

The European Standard EN ISO 15641:2001 has the status of a
British Standard

ICS 25.100.20

National foreword

This British Standard is the official English language version of EN ISO 15641:2001. It is identical with EN ISO 15641:2001

The UK participation in its preparation was entrusted to Technical Committee MTE/5, Engineer’s rotary cutting tools of high speed steel, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement these international or European publications may be found in the the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the "Find" facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Engineering Sector Policy and Strategy Committee, was published under the authority of the Standards Policy and Strategy Committee and comes into effect on 24 September 2001
