Leather — Chemical tests for the determination of certain azo colourants in dyed leathers

Part 1: Determination of certain aromatic amines derived from azo colourants

National foreword

This British Standard is the UK implementation of EN ISO 17234-1:2024. It is identical to ISO 17234-1:2024. It supersedes BS EN ISO 17234-1:2020, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee TCI/69, Footwear & Leather.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.
