

BSI Standards Publication

**Soil quality — Requirements
and guidance for the selection
and application of methods
for the assessment of
bioavailability of contaminants
in soil and soil materials (ISO
17402:2008)**

National foreword

This British Standard is the UK implementation of EN ISO 17402:2011. It is identical to ISO 17402:2008.

The UK participation in its preparation was entrusted to Technical Committee EH/4, Soil quality.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
