

BSI Standards Publication

Footwear — Critical substances potentially present in footwear and footwear components — Determination of Nitrosamines

National foreword

This British Standard is the UK implementation of EN ISO 19577:2019.

The UK participation in its preparation was entrusted to Technical Committee TCI/69, Footwear & Leather.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
