

BSI Standards Publication

Fine ceramics (advanced ceramics, advanced technical ceramics) — Reinforcement of ceramic composites — Determination of distribution of tensile strength and tensile strain to failure of filaments within a multifilament tow at ambient temperature

National foreword

This British Standard is the UK implementation of EN ISO 22459:2022. It is identical to ISO 22459:2020. It supersedes BS EN 1007-5:2010, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee RPI/13, Advanced technical ceramics.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations
