

BSI Standards Publication

**Liquid petroleum products — Determination
of hydrocarbon types and oxygenates in
automotive-motor gasoline and in ethanol
(E85) automotive fuel — Multidimensional
gas chromatography method**

National foreword

This British Standard is the UK implementation of EN ISO 22854:2025. It is identical to ISO 22854:2025. It supersedes BS EN ISO 22854:2021, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PTI/2, Liquid Fuels.

A list of organizations represented on this committee can be obtained on request to its committee manager.

Contractual and legal considerations

This publication has been prepared in good faith, however no representation, warranty, assurance or undertaking (express or implied) is or will be made, and no responsibility or liability is or will be accepted by BSI in relation to the adequacy, accuracy, completeness or reasonableness of this publication. All and any such responsibility and liability is expressly disclaimed to the full extent permitted by the law.

This publication is provided as is, and is to be used at the recipient's own risk.

The recipient is advised to consider seeking professional guidance with respect to its use of this publication.

This publication is not intended to constitute a contract. Users are responsible for its correct application.
