

BSI Standards Publication

**Petroleum, petrochemical and natural
gas industries — Pressure-relieving
and depressuring systems**

National foreword

This British Standard is the UK implementation of EN ISO 23251:2020. It is identical to ISO 23251:2019. It supersedes BS EN ISO 23251:2007+A1:2008, which is withdrawn.

Users should note that the Normative Reference API Std 521, *6th edition (2014), Pressure-relieving and depressuring systems*, has been revised and the latest edition is the 7th Edition (2020). It is advised that users should use this later publication.

The UK participation in its preparation was entrusted to Technical Committee PSE/17/-/6, Processing equipment and systems for petroleum and natural gas industries.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
