

BSI Standards Publication

Acoustics — Determination of sound power levels and sound energy levels of noise sources using sound pressure — Engineering methods for small movable sources in reverberant fields

Part 1: Comparison method for a hard-walled test room (ISO 3743-1:2010)

National foreword

This British Standard is the UK implementation of EN ISO 3743-1:2010. It supersedes BS EN ISO 3743-1:2009 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee EH/1/4, Machinery noise.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
