

Connections for hydraulic fluid power and general use — Ports and stud ends with ISO 261 metric threads and O-ring sealing —

**Part 2: Dimensions, design, test
methods and requirements for
heavy-duty (S series) stud ends**

The European Standard EN ISO 6149-2:2007 has the status of a
British Standard

ICS 23.100.40

National foreword

This British Standard was published by BSI. It is the UK implementation of EN ISO 6149-2:2007. It is identical with ISO 6149-2:2006. It supersedes BS ISO 6149-2:1993 which is withdrawn.

The UK participation in its preparation was entrusted by Technical Committee MCE/18, Fluid power systems and components, to Subcommittee MCE/18/-/4, Connectors and associated components.

A list of organizations represented on this subcommittee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 March 2006
