

Technical drawings — Construction drawings — General rules for execution of production drawings for prefabricated structural components

The European Standard EN ISO 7437:1996 has the status of a
British Standard

ICS 01.100.30

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee B/212, Tolerances, drawing practice, modular coordination, joints, project information and computer modelling, upon which the following bodies were represented:

- Architects and Surveyors Institute
- Association of Building Engineers
- Association of County Councils
- British Institute of Architectural Technologists
- Building Employers Confederation
- Chartered Institute of Building
- Chartered Institution of Building Services Engineers
- Concrete Society
- Department of the Environment (Building Research Establishment)
- Institution of Civil Engineers
- Institution of Structural Engineers
- Local Authority Organizations
- Royal Institute of British Architects
- Royal Institution of Chartered Surveyors
- Society of Chief Architects of Local Authorities

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Constructional Steelwork Association Ltd.
- British Standards Society
- Landscape Institute

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 August 1996
