

Metallic tube connections for fluid power and general use —

Part 4: 24° cone connectors with O-ring weld-on nipples

The European Standard EN ISO 8434-4:2000 has the status of a British Standard.

ICS 23.100.30

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee MCE/18, Fluid power systems and components, upon which the following bodies were represented:

- Association of British Mining Equipment Companies
- British Compressed Air Society
- British Fluid Power Association
- British Hydromechanics Research Association
- British Steel Industry
- Department of Trade and Industry (National Engineering Laboratory)
- Ministry of Defence
- University of Bath

The following bodies were also represented in the drafting of the standard through subcommittees and panels:

- British Iron and Steel Producers' Association
- Engineering Equipment and Materials Users' Association

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 January 1997
