

BSI Standards Publication

Preparation of steel substrates before application of paints and related products — Surface roughness characteristics of blast-cleaned steel substrates

Part 1: Specifications and definitions for
ISO surface profile comparators for the
assessment of abrasive blast-cleaned
surfaces

National foreword

This British Standard is the UK implementation of . It supersedes BS EN ISO 8503-1:1995 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee STI/21, Surface preparation of steel.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
