

Ergonomic requirements for office work with visual display terminals (VDTs)

Part 8. Requirements for displayed colours

The European Standard EN ISO 9241-8 : 1997 has the status of a British Standard.

ICS 13.180; 35.180

National foreword

This British Standard is the English language version of EN ISO 9241-8 : 1997. It is identical with ISO 9241-8 : 1997.

The UK participation in its preparation was entrusted by Technical Committee PH/9, Applied ergonomics, to Subcommittee PH/9/6, User system interface, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this Subcommittee can be obtained on request to its secretary.

Cross-references

Attention is drawn to the fact that CEN and CENELEC Standards normally include an annex which lists normative references to international publications with their corresponding European publications. The British Standards which implement these international or European publications may be found in the BSI Standards Catalogue under the section entitled 'International Standards Correspondence Index', or by using the 'Find' facility of the BSI Standards Electronic Catalogue.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, the EN ISO title page, the EN ISO foreword page, the ISO title page, pages ii to iv, pages 1 to 27 and a back cover.

Amendments issued since publication

Amd. No.	Date	Text affected
