Semiconductor devices — Micro-electromechanical devices

Part 28: Performance testing method of vibration-driven MEMS electret energy harvesting devices

National foreword

This British Standard is the UK implementation of IEC 62047-28:2017.

The UK participation in its preparation was entrusted to Technical Committee EPL/47, Semiconductors.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
