Printed electronics

Part 202-6: Materials — Conductive ink — Measurement method for resistance changes under high temperature and humidity — Printed conductive layer on a flexible substrate

National foreword

This British Standard is the UK implementation of IEC 62899-202-6:2020.

The UK participation in its preparation was entrusted to Technical Committee AMT/9, Printed Electronics.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
