Semiconductor devices — Flexible and stretchable semiconductor devices

Part 2: Evaluation method for electron mobility, sub-threshold swing, and threshold voltage of flexible devices

National foreword

This British Standard is the UK implementation of IEC 62951-2:2019.

The UK participation in its preparation was entrusted to Technical Committee EPL/47, Semiconductors.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
