

Dense, shaped refractory products — Determination of cold compressive strength —

Part 2: Test with packing

ICS 81.080

National foreword

This British Standard reproduces verbatim ISO 10059-2:2003 and implements it as the UK national standard.

The UK participation in its preparation was entrusted to Technical Committee RPI/1, Refractory products and materials, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Cross-references

The British Standards which implement international publications referred to in this document may be found in the *BSI Catalogue* under the section entitled “International Standards Correspondence Index”, or by using the “Search” facility of the *BSI Electronic Catalogue* or of British Standards Online.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
