

Statistical aspects of sampling from bulk materials —

Part 2: Sampling of particulate materials

ICS 03.120.30

National foreword

This British Standard reproduces verbatim ISO 11648-2:2001 and implements it as the UK national standard.

The UK participation in its preparation was entrusted to Technical Committee SS/3, Application of Statistical Methods, which has the responsibility to:

- aid enquirers to understand the text;
- present to the responsible international/European committee any enquiries on the interpretation, or proposals for change, and keep the UK interests informed;
- monitor related international and European developments and promulgate them in the UK.

A list of organizations represented on this committee can be obtained on request to its secretary.

Textual errors

The textual error set out below was discovered when adopting the text of the international standard. It has been reported to ISO in a proposal to amend the text of the international standard.

Clause 5.3.2, page 17, paragraph 2 is not correct. An effect does not have to be statistically significant before it can be accommodated.

Cross-references

The British Standards which implement international or European publications referred to in this document may be found in the BSI Standards Catalogue under the section entitled “International Standards Correspondence Index”, or by using the “Find” facility of the BSI Standards Electronic Catalogue.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Any further errors in this standard should be submitted to the Secretary of the Technical committee SS/3, British Standards House, 389 Chiswick High Road, W4 4AL who will submit them formally to ISO.

This British Standard, having been prepared under the direction of the Management Systems Sector Policy and Strategy Committee, was published under the authority of the Standards Policy and Strategy Committee on 5 December 2001
