Measurement of radioactivity in the environment — Air: Radon-222

Part 9: Test methods for exhalation rate of building materials

National foreword

This British Standard is the UK implementation of [ISO 11665-9:2019](#).

The UK participation in its preparation was entrusted to Technical Committee NCE/2, Radiation protection and measurement.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
