Soil quality — Determination of selected coal-tar-derived phenolic compounds using high performance liquid chromatography (HPLC)

National foreword

This British Standard is the UK implementation of ISO 11709:2011.

The UK participation in its preparation was entrusted to Technical Committee EH/4, Soil quality.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
