

BSI Standards Publication

Interior air of road vehicles

Part 8: Handling and packaging of materials and components for emission testing

National foreword

This British Standard is the UK implementation of ISO 12219-8:2018.

The UK participation in its preparation was entrusted to Technical Committee EH/2/5, Emissions to internal environments.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
