Ships and marine technology — Risk assessment on anti- fouling systems on ships

Part 3: Human health risk assessment
method of biocidally active substances used
in anti-fouling paints on ships during the
application and removal processes

National foreword

This British Standard is the UK implementation of ISO 13073-3:2016.

The UK participation in its preparation was entrusted to Technical Committee SME/32, Ships and marine technology - Steering committee.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
