Rubber, vulcanized or thermoplastic — Resistance to ozone cracking

Part 3: Reference and alternative methods for determining
the ozone concentration in laboratory test chambers

National foreword

This British Standard is the UK implementation of ISO 1431-3:2017. It supersedes BS ISO 1431-3:2000, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/22, Testing and analysis of rubber.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
