Carbonaceous materials for the production of aluminium — Cathode block materials

Part 1: Determination of the expansion due to sodium penetration with application of pressure

National foreword

This British Standard is the UK implementation of ISO 15379-1:2019. It supersedes BS ISO 15379-1:2015, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee CII/24, Raw materials for the aluminium industry.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
