Medical devices — Recognized essential principles of safety and performance of medical devices

Part 1: General essential principles and additional specific essential principles for all non-IVD medical devices and guidance on the selection of standards

National foreword

This British Standard is the UK implementation of ISO 16142-1:2016. It supersedes PD ISO/TR 16142:2006 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee CH/210, Quality management and corresponding general aspects for medical devices.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
