Underwater acoustics — Quantities and procedures for description and measurement of underwater sound from ships

Part 2: Determination of source levels from deep water measurements

National foreword

This British Standard is the UK implementation of ISO 17208-2:2019.

The UK participation in its preparation was entrusted to Technical Committee EH/1/7, Underwater acoustics.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
