

BS ISO 18257:2016

BSI Standards Publication

Space systems — Semiconductor integrated circuits for space applications — Design requirements

National foreword

This British Standard is the UK implementation of ISO 18257:2016.

The UK participation in its preparation was entrusted to Technical Committee ACE/68, Space systems and operations.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
