Road vehicles — In-vehicle Ethernet

Part 4: General requirements and test methods of
optical gigabit Ethernet components

National foreword

This British Standard is the UK implementation of [ISO 21111-4:2020](#).

The UK participation in its preparation was entrusted to Technical Committee AUE/32, Electrical and electronic components and general system aspects (Road vehicles).

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
