

BSI Standards Publication

Building construction machinery and equipment — Concrete pumps

Part 2: Procedure for examination of technical parameters

National foreword

This British Standard is the UK implementation of ISO 21573-2:2020.

The UK participation in its preparation was entrusted to Technical Committee B/513, Construction equipment and plant and site safety.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
