Refractories — Test methods for thermal shock resistance

National foreword

This British Standard is the UK implementation of [ISO 21736:2020](#).

The UK participation in its preparation was entrusted to Technical Committee RPI/1, Refractory products and materials.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
