

Space systems — Space environment (natural and artificial) — Model of the earth's magnetospheric magnetic field

ICS 49.140

National foreword

This British Standard is the UK implementation of ISO 22009:2009.

The UK participation in its preparation was entrusted to Technical Committee ACE/68/-/4, Space systems and operations - Space environment (natural and artificial).

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with a British Standard cannot confer immunity from legal obligations.

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 31 January 2010
