

BSI Standards Publication

Rubber, raw — Determination of the glass transition temperature by differential scanning calorimetry (DSC)

National foreword

This British Standard is the UK implementation of ISO 22768:2017. It supersedes BS ISO 22768:2006, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee PRI/50, Raw materials (including latex) for use in the rubber industry.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
