

BSI Standards Publication

**Corrosion of metals and alloys — Test method
for measuring the stress corrosion crack
growth rate of steels and alloys under static-
load conditions in high-temperature water**

National foreword

This British Standard is the UK implementation of ISO 22848:2021.

The UK participation in its preparation was entrusted to Technical Committee ISE/NFE/8, Corrosion of metals and alloys.

A list of organizations represented on this committee can be obtained on request to its committee manager.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
