

BSI Standards Publication

# **Metallic materials — Method of test for the determination of resistance to stable crack extension using specimens of low constraint**

**National foreword**

This British Standard is the UK implementation of ISO 22889:2013. It supersedes BS ISO 22889:2007 which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee ISE/101/4, Toughness testing.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
