

BS ISO 23788:2012

BSI Standards Publication

Metallic materials — Verification of the alignment of fatigue testing machines

National foreword

This British Standard is the UK implementation of ISO 23788:2012.

The UK participation in its preparation was entrusted to Technical Committee ISE/101/6, Fatigue testing of metals and metal matrix composites.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
