Reciprocating internal combustion engines — Exhaust emission measurement

Part 4: Steady-state and transient test cycles for different engine applications

National foreword

This British Standard is the UK implementation of ISO 8178-4:2020. It supersedes BS ISO 8178-4:2017, which is withdrawn.

The UK participation in its preparation was entrusted to Technical Committee MCE/14/-/3, RIC Engines - Performance and emissions.

A list of organizations represented on this committee can be obtained on request to its secretary.

This publication does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.
