Human-centred design processes for interactive systems

*Processus de conception centrée sur l'opérateur humain pour les systèmes
interactifs*

Reference number
ISO 13407:1999(E)

Contents	Page
1 Scope	1
2 Terms and definitions	1
3 Structure of this International Standard.....	2
4 Rationale for adopting a human-centred design process	2
5 Principles of human-centred design.....	3
5.1 General.....	3
5.2 The active involvement of users and a clear understanding of user and task requirements.....	3
5.3 An appropriate allocation of function between users and technology	3
5.4 Iteration of design solutions.....	3
5.5 Multi-disciplinary design.....	4
6 Planning the human-centred design process.....	4
7 Human-centred design activities	5
7.1 General.....	5
7.2 Understand and specify the context of use	6
7.3 Specify the user and organizational requirements	7
7.4 Produce design solutions.....	8
7.5 Evaluate designs against requirements	9
8 Conformance.....	12
Annex A (informative) Guidance on other relevant standards	13
Annex B (informative) Example of a structure of a usability evaluation report.....	17
Annex C (informative) Sample procedure for demonstrating conformance to this International Standard	20
Bibliography.....	25
