Lifting hooks — General characteristics

First edition — 1972-07-01

UDC 621.86.061

Ref. No. ISO 2141-1972 (E)

Descriptors : hoists, hooks.

FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO Member Bodies). The work of developing International Standards is carried out through ISO Technical Committees. Every Member Body interested in a subject for which a Technical Committee has been set up has the right to be represented on that Committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the Technical Committees are circulated to the Member Bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 2141 was drawn up by Technical Committee ISO/TC 111, *Round steel link chains, chain wheels, lifting hooks and accessories*.

It was approved in June 1971 by the Member Bodies of the following countries:

Australia	Greece	New Zealand
Austria	India	South Africa, Rep. of
Belgium	Ireland	Spain
Bulgaria	Israel	Sweden
Canada	Italy	Thailand
Egypt, Arab Rep. of	Japan	Turkey
France	Korea, Rep. of	United Kingdom
Germany	Netherlands	U.S.A.

The Member Body of the following country expressed disapproval of the document on technical grounds:

Romania
