Descriptors : engineering drawings, buildings, installing, sanitary appliances, graphic methods.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 4067/2 was developed by Technical Committee ISO/TC 10, *Technical drawings*, and was circulated to the member bodies in November 1977.

It has been approved by the member bodies of the following countries :

Australia	France	South Africa, Rep. of
Belgium	India	Spain
Bulgaria	Ireland	Sweden
Canada	Italy	Turkey
Chile	Japan	United Kingdom
Czechoslovakia	Mexico	USSR
Egypt, Arab Rep. of	Norway	Yugoslavia
Finland	Romania	

The member bodies of the following countries expressed disapproval of the document on technical grounds :

Austria
Germany, F. R.
Netherlands
Switzerland
USA
