FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 4068 was developed by Technical Committee ISO/TC 10, *Technical drawings*, and was circulated to the member bodies in August 1976.

It has been approved by the member bodies of the following countries :

Australia	Germany	Norway
Belgium	India	Poland
Bulgaria	Ireland	Romania
Canada	Italy	Sweden
Chile	Korea, Rep. of	Switzerland
Denmark	Mexico	Turkey
Finland	Netherlands	U.S.S.R.
France	New Zealand	Yugoslavia

The member bodies of the following countries expressed disapproval of the document on technical grounds :

Austria
Czechoslovakia
United Kingdom
