

INTERNATIONAL STANDARD

ISO
4510-2

Second edition
1996-11-15

Earth-moving machinery — Service tools —

Part 2: Mechanical pullers and pushers

*Engins de terrassement — Outils d'entretien et de dépannage —
Partie 2: Extracteurs mécaniques par traction et par pression*

Reference number
ISO 4510-2:1996(E)

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 4510-2 was prepared by Technical Committee ISO/TC 127, *Earth-moving machinery*, Subcommittee SC 3, *Operation and maintenance*.

This second edition cancels and replaces the first edition (ISO 4510-2:1986), which has been technically revised.

ISO 4510 consists of the following parts, under the general title *Earth-moving machinery — Service tools*:

- *Part 1: Common maintenance and adjustment tools*
- *Part 2: Mechanical pullers and pushers*

Annex A of this part of ISO 4510 is for information only.
