FOREWORD

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 510 was drawn up by Technical Committee ISO/TC 35, *Paints and varnishes*, and was circulated to the member bodies in December 1974.

It has been approved by the member bodies of the following countries :

Australia	Iran	South Africa, Rep. of
Austria	Ireland	Spain
Brazil	Italy	Sweden
Bulgaria	Netherlands	Switzerland
Egypt, Arab Rep. of	New Zealand	Turkey
France	Poland	Yugoslavia
Germany	Portugal	
India	Romania	

The member body of the following country expressed disapproval of the document on technical grounds :

United Kingdom

This International Standard cancels and replaces ISO Recommendation R 510-1966, of which it constitutes a technical revision.
