

INTERNATIONAL STANDARD

ISO
6054-1

Third edition
1994-12-15

Motorcycle tyres and rims (code-designated series) — Diameter codes 4 to 12 —

Part 1: **Tyres**

*Pneumatiques et jantes pour motocycles (séries dont les dimensions sont
désignées par des codes) — Codes de diamètre 4 à 12 —*

Partie 1: Pneumatiques

Reference number
ISO 6054-1:1994(E)

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for voting. Publication as an International Standard requires approval by at least 75 % of the member bodies casting a vote.

International Standard ISO 6054-1 was prepared by Technical Committee ISO/TC 31, *Tyres, rims and valves*, Subcommittee SC 10, *Cycle, moped, motorcycle tyres and rims*.

This third edition cancels and replaces the second edition (ISO 6054-1:1990), of which it constitutes a technical revision.

ISO 6054 consists of the following parts, under the general title *Motor-cycle tyres and rims (code-designated series)* — *Diameter codes 4 to 12*:

- *Part 1: Tyres*
- *Part 2: Rims*

Annex A of this part of ISO 6054 is for information only.
