Information processing — Self-loading cartridges for 12,7 mm (0.5 in) wide magnetic tape

Traitement de l'information — Cartouches à chargement automatique pour bande magnétique de 12,7 mm (0,5 in) de large

Second edition — 1984-12-15

UDC 681.327.64

Ref. No. ISO 6098-1984 (E)

Descriptors : data processing, information interchange, data storage devices, magnetic tapes, cassettes for magnetic tapes, dimensions, characteristics, mechanical properties.

Price based on 11 pages

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council. They are approved in accordance with ISO procedures requiring at least 75 % approval by the member bodies voting.

International Standard ISO 6098 was prepared by Technical Committee ISO/TC 97, *Information processing systems*.

ISO 6098 was first published in 1982. This second edition cancels and replaces the first edition; sub-clause 5.1 of the previous edition having been technically revised.
