Agricultural food products — Determination of crude fibre content — Modified Scharrer method

Produits agricoles alimentaires — Détermination de l'indice d'insoluble dit «cellulosique» — Méthode de Scharrer modifiée

First edition — 1981-06-01

UDC 664 : 543.868

Ref. No. ISO 6541-1981 (E)

Descriptors : agricultural products, food products, cereal products, tests, determination, indexes (ratios), insoluble matter.

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards institutes (ISO member bodies). The work of developing International Standards is carried out through ISO technical committees. Every member body interested in a subject for which a technical committee has been set up has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council.

International Standard ISO 6541 was developed by Technical Committee ISO/TC 34, *Agricultural food products*, and was circulated to the member bodies in September 1979.

It has been approved by the member bodies of the following countries :

Austria	Hungary	Portugal
Brazil	India	Romania
Bulgaria	Israel	South Africa, Rep. of
Canada	Korea, Rep. of	Spain
Cyprus	Libyan Arab Jamahiriya	Thailand
Czechoslovakia	Malaysia	Turkey
Egypt, Arab Rep. of	Mexico	United Kingdom
Ethiopia	Netherlands	USSR
France	New Zealand	Yugoslavia
Germany, F.R.	Poland	

No member body expressed disapproval of the document.

This International Standard has also been approved by the International Union of Pure and Applied Chemistry (IUPAC).

NOTE — This International Standard is based on Standard No. 113 of the International Association for Cereal Chemistry (ICC).
