

INTERNATIONAL STANDARD

ISO
7201-1

Second edition
1989-12-15

Fire protection — Fire extinguishing media — Halogenated hydrocarbons —

Part 1: Specifications for halon 1211 and halon 1301

*Protection contre l'incendie — Agents extincteurs — Hydrocarbures halogénés —
Partie 1: Spécifications pour les halons 1211 et 1301*

Reference number
ISO 7201-1 : 1989 (E)

Foreword

ISO (the International Organization for Standardization) is a worldwide federation of national standards bodies (ISO member bodies). The work of preparing International Standards is normally carried out through ISO technical committees. Each member body interested in a subject for which a technical committee has been established has the right to be represented on that committee. International organizations, governmental and non-governmental, in liaison with ISO, also take part in the work. ISO collaborates closely with the International Electrotechnical Commission (IEC) on all matters of electrotechnical standardization.

Draft International Standards adopted by the technical committees are circulated to the member bodies for approval before their acceptance as International Standards by the ISO Council. They are approved in accordance with ISO procedures requiring at least 75 % approval by the member bodies voting.

International Standard ISO 7201-1 was prepared by Technical Committee ISO/TC 21, *Equipment for fire protection and fire fighting*.

This second edition cancels and replaces the first edition (ISO 7201 : 1982), which has been technically revised.

At present, ISO 7201 consists of the following part, under the general title *Fire protection — Fire extinguishing media — Halogenated hydrocarbons*:

- *Part 1: Specifications for halon 1211 and halon 1301*

Annex A of this part of ISO 7201 is for information only.
